

Please note with co-sanctioned races –

There could be a delay of up to 3 weeks or more before the race is updated on the website. We give the producers a 2 weeks grace period to send results to us. After that, it could take me an additional week to update things due to my work schedule during the week. Working from 7am-7pm, in addition to getting things done I need to do for myself during the week, does not always leave time for updating the PCBRA. I usually get to that on the weekends. In addition, if the results are sent to Cathy rather than myself, then there could be an additional lag time in the website being updated. If you notice that the results from a particular race are not yet updated please do the following:

- 1) DO NOT PANIC and call the race producer
- 2) Please contact Amy at amy_mcclung84@yahoo.com or pcbupdates@yahoo.com and ask if the results were received. They could very well be on my desk, Cathy's desk, or that the grace period for receiving them has not yet expired. I will then contact you to let you know the status of that particular race.

Thank You.
